Blue Stone International Expands with Opening of New York Office
Seventh office now offers enhanced East Coast presence in response to client demand

CHICAGO – April 27, 2010- An increased demand for Blue Stone International’s strategy and financial consulting services has resulted in additional project managers and consultants, which will be based out of the New York office. Blue Stone strives to meet customer demands by offering local resources and reduce commute times when possible.

With headquarters based in Chicago, Blue Stone International also currently operates offices in Boston, Denver, Houston, London and San Diego.

According to Blue Stone International’s Managing Director, Jay Laabs, “The addition of our New York-based team and office allows us to have greater accessibility to our clients in order to better serve their technical and consultative needs.”

About Blue Stone International

Blue Stone International, LLC is a strategy and financial consulting firm offering a unique balance of financial, industry and technical expertise to enhance the way our clients manage their financial processes. Our teams develop financial models and streamline processes for CFO-related activities including: strategic planning, mergers and acquisitions, divestitures, corporate valuation, liquidity and treasury management. We leverage the unique balance of our financial and technical skills to provide practical business solutions and processes that support the initiatives driving modeling activities. Blue Stone International is trusted for more than 75% of all implementations of HSF. Our specialized strategy and financial consulting services are globally recognized and valued for the results we help our clients achieve.
